

# Seaquest Spawn Pattern

- There are 4 lanes on which enemies can spawn

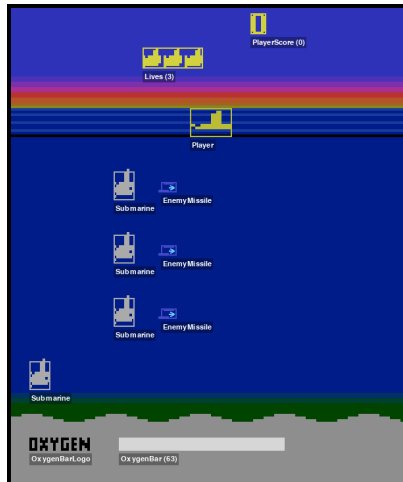

## When do the enemies spawn?

### When player is not moving:

1. Two **divers** (friendly) spawn from the left on lane 1 and 2 → Shortly after 4 **sharks** (enemies) spawn (three from left on lane 1,2,3; one from right on lane 4)

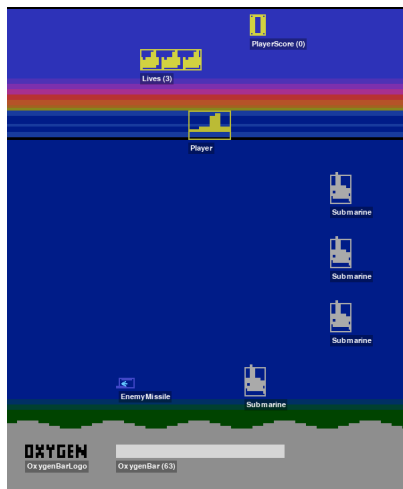

2. When letting divers and sharks disappear → 3 **Submarines** (enemies) spawn from the left (lane 1,2,3) and 1 or 2 seconds after the fourth submarine spawns on lane 4

3. Next up when the subs are gone, 4 divers spawn followed by 3 sharks from left 1,2,3 with the fourth shark again being 1-2 seconds delayed

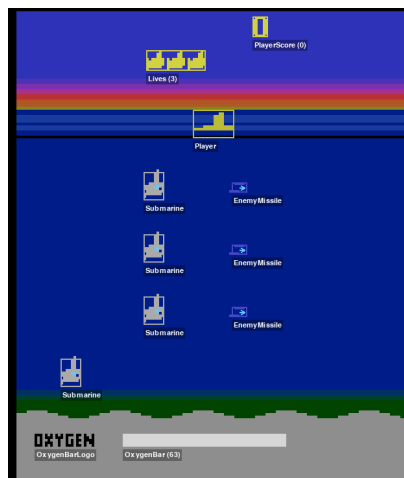

4. Afterwards 4 subs spawn from right 1,2,3 with 4 being delayed again

5. 4 Divers spawn with 4 sharks from right 4, and 3,2,1 delayed

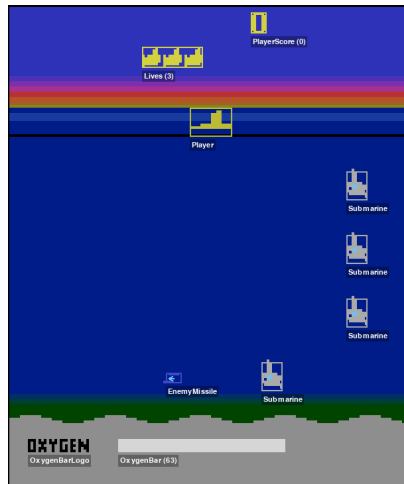

6. 4 Subs from left 1,2,3 and 4 being delayed

7. 4 Divers + Four sharks from right on 1,2,3 and 4 being delayed (upfront)

8. 4 Subs from right on 1,2,3 with 4 being upfront

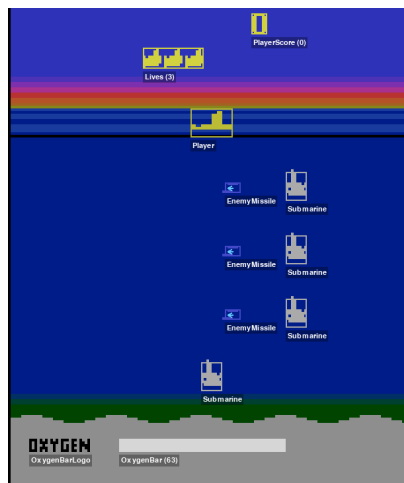

9. 4 Divers + 4 Sharks from right on 1,2,3 with 4 being upfront

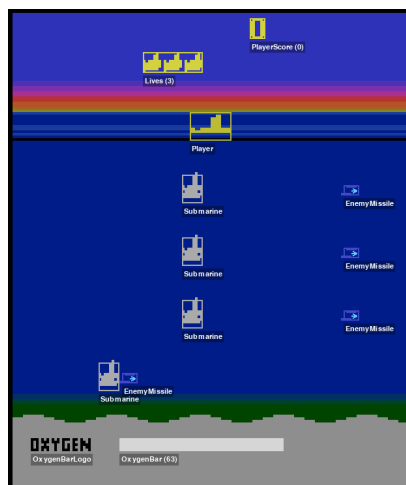

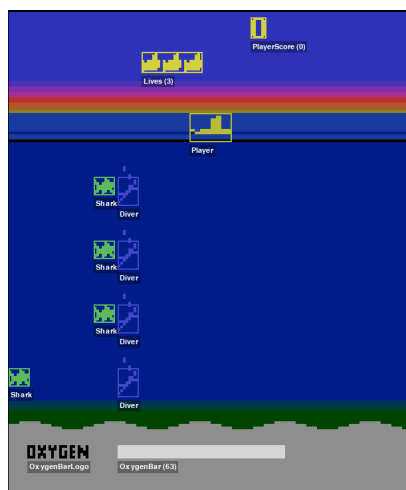

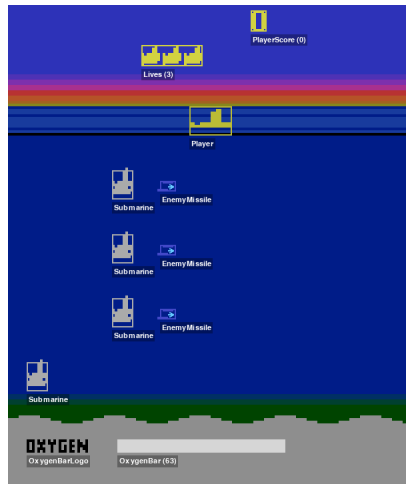

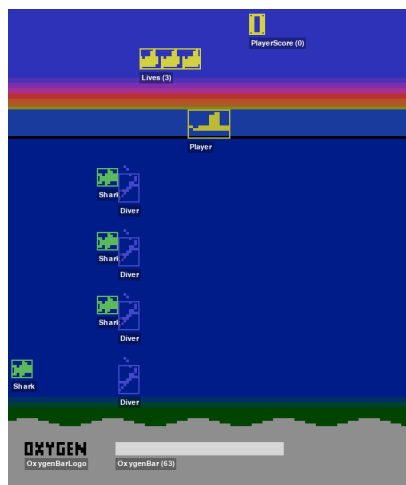

10. 4 Subs from left on 1,2,3 with 4 being delayed

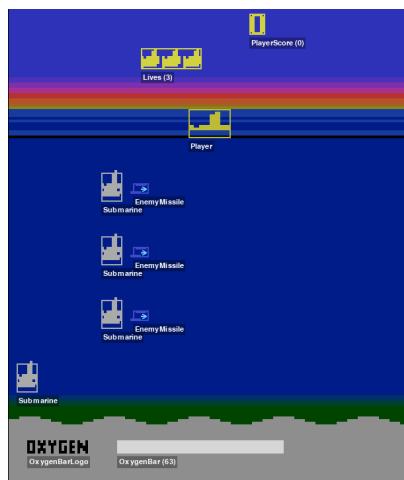

11. Maybe repeating from now? → fuck doch nich

...

### Findings (when player is passive)

- The waves **alternate** between **sharks** and **subs**

- Lane 1,2,3 always spawn simultaneously and lane 4 spawns:
  - delayed when coming from the left
  - upfront when coming from the right
  - Special case: first wave → lane 4 comes from opposite direction
- There is a fixed pattern for the direction of the waves which repeats every 21 waves
  - L L L R R L R R R L R R R L L L L R L R L
- The divers appear in every 2nd wave and always from the direction the enemies spawn
